

Application Steps

Step 1 - Visit Campaign Website. Fill in basic info.

- <https://license.vivotek.com/vision-object-metadata>

The screenshot shows a registration form titled "Register for Free Re-Search Object Metadata License for VIVOTEK Milestone Plug-in". The form includes a VIVOTEK logo and a sub-header "Register for Free Re-Search Metadata License [Limited-Time Event]". Below this, a notice states: "This registration system is exclusively for use with VIVOTEK Milestone plug-in. The application period is in year 2025.(Beta Test since 2024/11) Licenses applied for within this period will have full functionality without any usage limitations." There is an "I Agree" checkbox, which is unchecked, with a red error message "Agreement is required" below it. The form fields are: "Company Name" (text input, required), "Contact Person" (text input, required), "Email" (text input, required), "Country" (text input, required), "Application Type" (dropdown menu, required), and "VMS Type" (dropdown menu, required). Each field has a red error message "X" icon and a red text label indicating it is required. At the bottom of the form is a blue "Submission" button. Below the button, a footer text reads: "If you have any question, please contact Aaron.lin@vivotek.com".

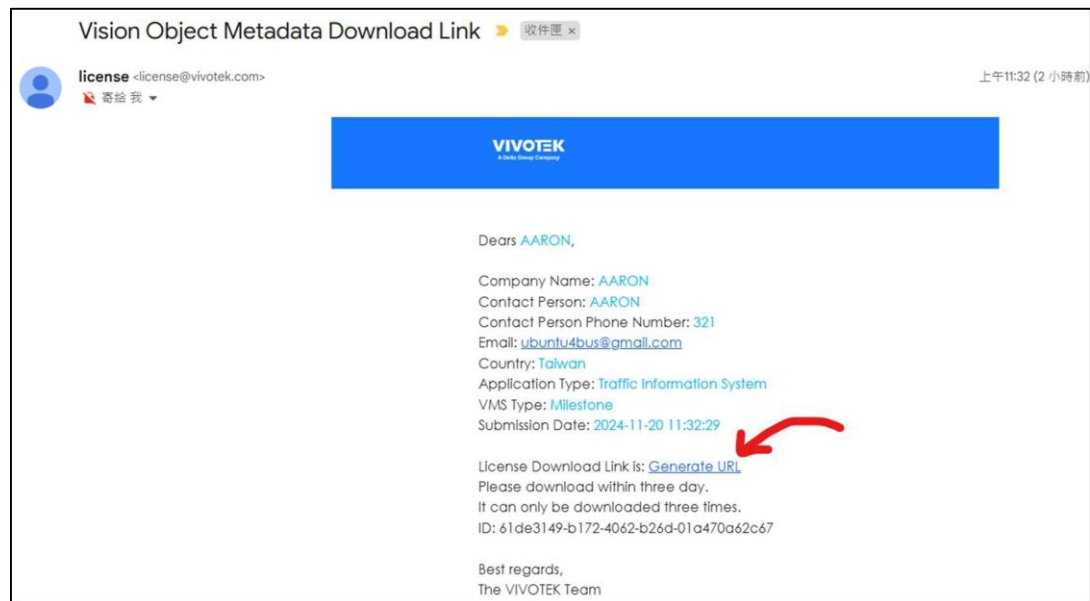

STEP 2 - Uploading MAC list

- Users can upload the MAC list by excel file.
- Sample file is available on the website.

The screenshot shows a file upload interface. At the top, there are two radio buttons: "Single" (unselected) and "Multiple" (selected). Below this, there are two sections: "Excel File" and "Template File". The "Excel File" section has a "Choose File" button, a "No file chosen" text, and a red error message "File is required". The "Template File" section has a "Sample Excel" link. At the bottom of the interface is a blue button labeled "Get Download Link".

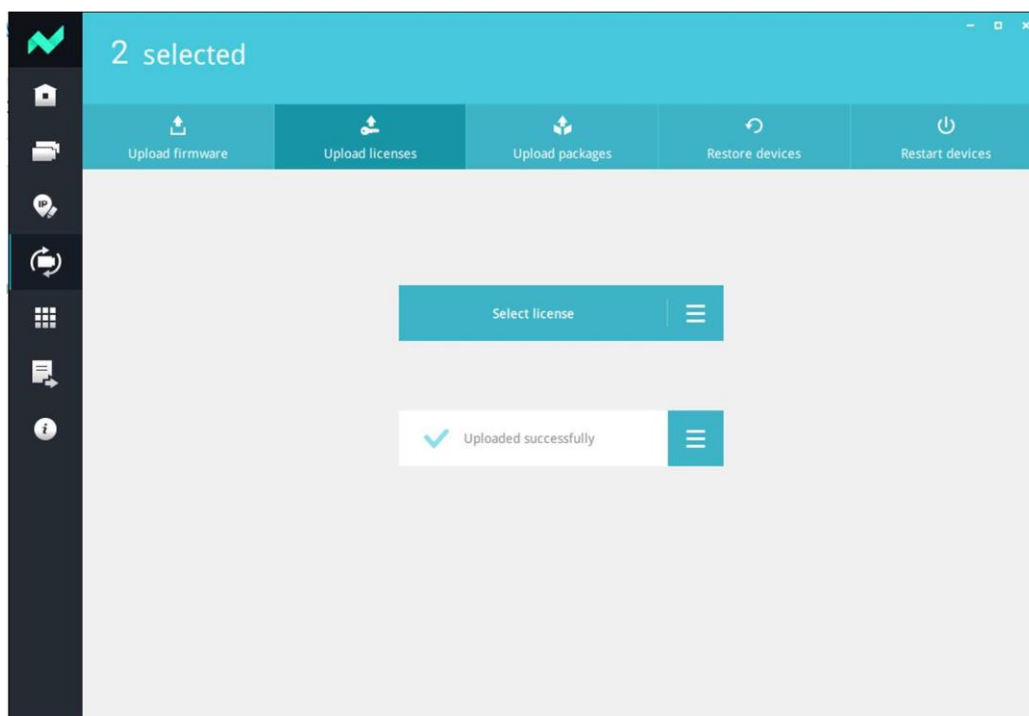

STEP 3 - Check your mailbox for Download link.

➤ Mail Subject: Vision Object Metadata Download Link

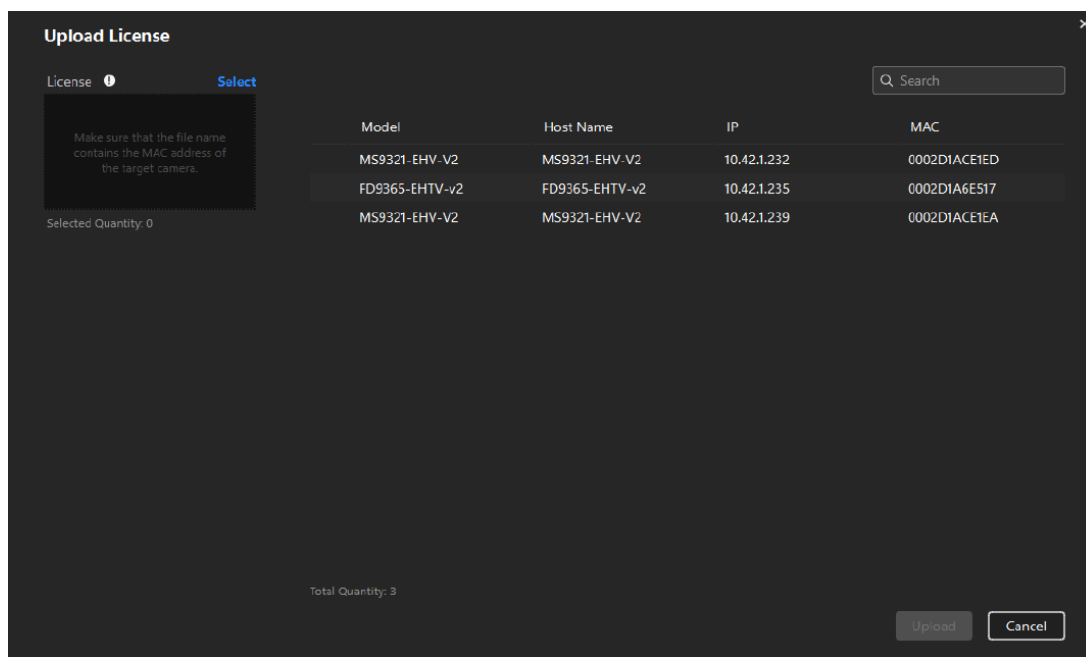

STEP 4 - Uploading the license to Camera

User can batch upload the license by “Shepherd”.

Or Users can batch upload the license file (*.txt or *.json) to device using our *Device Manager* tool (download from website):

- Users need to make sure the file name contains the MAC address of the target camera.

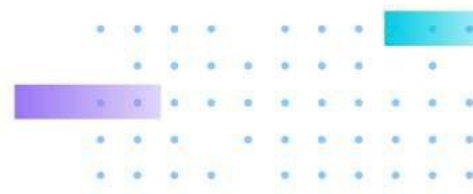

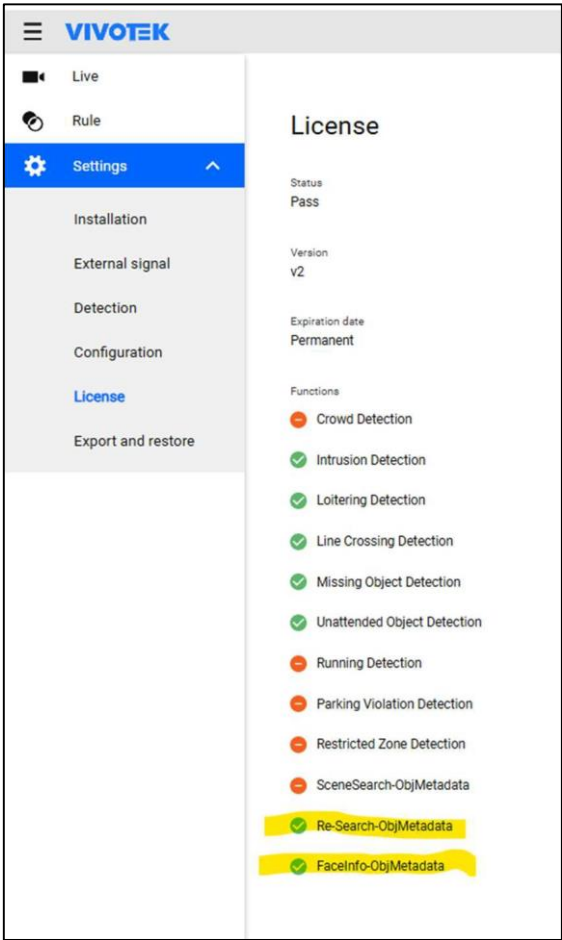

- Select license files for the selected device on device list. If the file name of license file is not matched for selected devices, then there will be red hint show on the list.

	Model	Host Name	IP	MAC
	MS9321-EHV-V2	MS9321-EHV-V2	10.42.1.232	0002D1ACE1ED
	FD9365-EHTV-v2	FD9365-EHTV-v2	10.42.1.235	0002D1A6E517
	MS9321-EHV-V2	MS9321-EHV-V2	10.42.1.239	0002D1ACE1EA

Note: How to check the license?

User can check the license within “Deep Learning VCA” license page. The “Re-Search ObjMetadata” & “FaceInfo-ObjMetadata” items will be checked.
